

# Safety Window & Door Restraint

## **FRAME-GUARD**

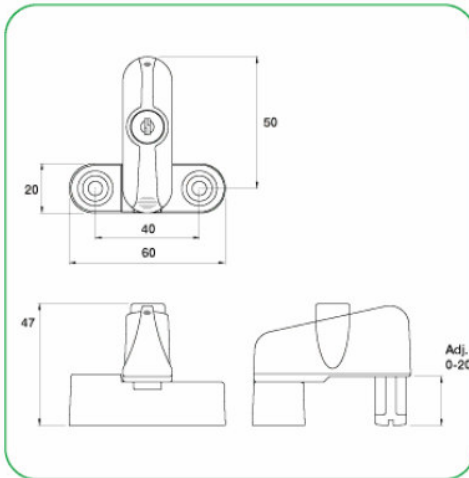

Many windows and doors will benefit from the added protection and improved security offered by Frame-Guard. Simple surface fixing and variable height adjustment for rebated profiles, ensures that Frame-Guard is the ideal security upgrade for timber, Aluminium and PVCu applications. The unique auto latching and dedicated key deadlocking action of Frame-Guard affords total peace of mind by providing a positive deterrent to any attempted forced entry.

Frame-Guard is available in powder coated White or Gold finish.

It is recommended that for Aluminium and PVCu applications a cavity fixing kit with M5 machine screws be used. Kits are available to order.

### **Dimensions**

### **Part Numbers**

Colour	Locking Ref.
White	JBC370/W1
Gold	JBC370/G1
